# Team Wiki - Deadlines

## June

28

### Project Inspiration and Descriptions Draft Due

Your preliminary draft for your team's project inspiration and description is due June 28th. This description should be posted on your Team Wiki Description page (example URL: <https://2019.igem.org/Team:TeamName/Description>).

#### Why is this deadline important?

This description serves to provide some background on what your team has been working on so far and what you hope to accomplish. It should also include the inspiration for your project and why your team chose this project. It also provides other teams the opportunity to see what you're working on so they can reach out for collaborations or troubleshooting if they are exploring a similar topic. The final Project Inspiration and Description are due by the Wiki Freeze on October 21, 11:59PM EDT.

### Wiki Freeze

The Wiki Freeze for the 2019 Giant Jamboree is on October 21, 11:59PM EDT.

#### Why is this deadline important?

The Wiki Freeze is important for the judging process of the competition. Judges will be assigned their teams and begin judging assessments the next day. Your Wiki is the public face of your project, so make sure you begin work on it early to avoid last minute problems and mistakes. Once the wikis are frozen, users can no longer make any changes until they are unfrozen after the Jamboree. Please be sure to read through the the [Wiki requirements!](#) No extensions will be provided (no exceptions!) and judges will begin their assessment the next day, so make sure all changes are done by October 21, 11:59PM EDT.

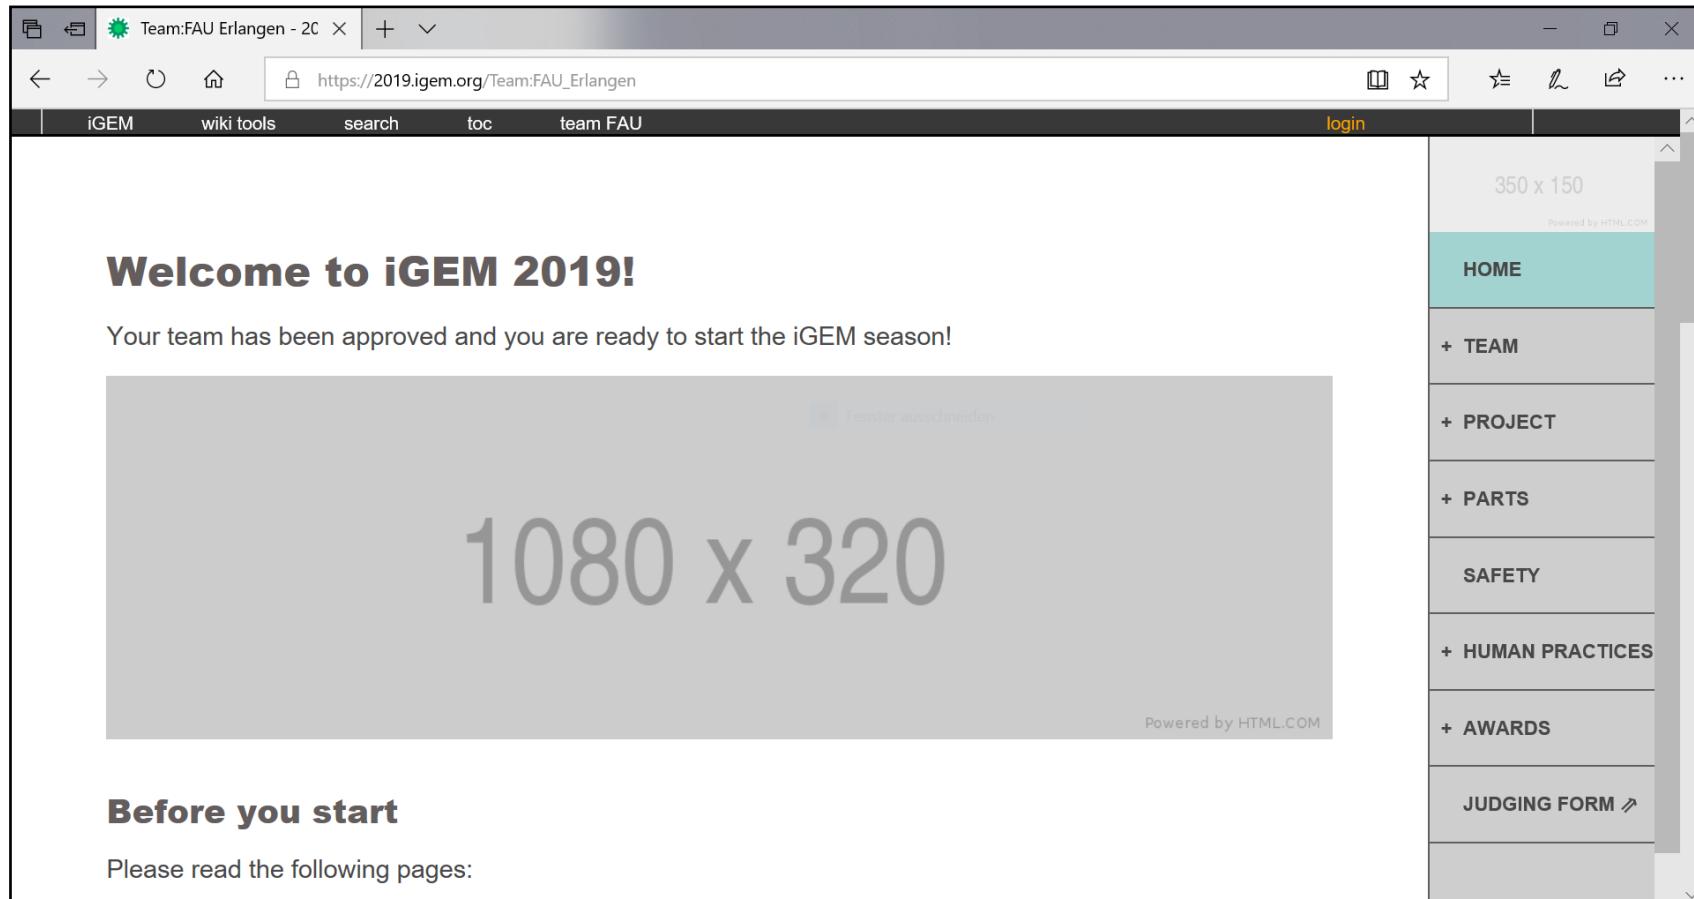

**IMPORTANT:**All teams must follow the [Wiki Rules](#). Failure to follow these rules may prevent your team from winning medals or prizes.

**PLEASE NOTE:** During week of wiki freeze, iGEM experiences higher than normal traffic which can lead to strain on our servers and sessions timing out for users. iGEM HQ recommends that users do not wait till the last days to work on and/or finish their wikis. Edits done during the final week should be very minor edits (spelling mistakes, updating images, etc.).
